

Welcome to the brand new world of your HUAWEI Ascend Mate smartphone! Before we begin, let's take a quick look at Mate and its external features.

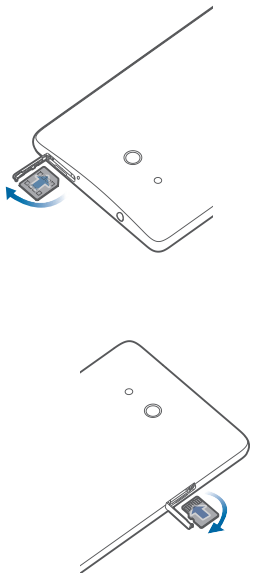

Only micro-SIM cards are compatible with your Mate. To purchase or replace a micro-SIM card, contact your service provider. Refer to the following figure to install a micro-SIM card.

Your Mate supports Class 10 microSD cards. Refer to the following figure to install a microSD card.

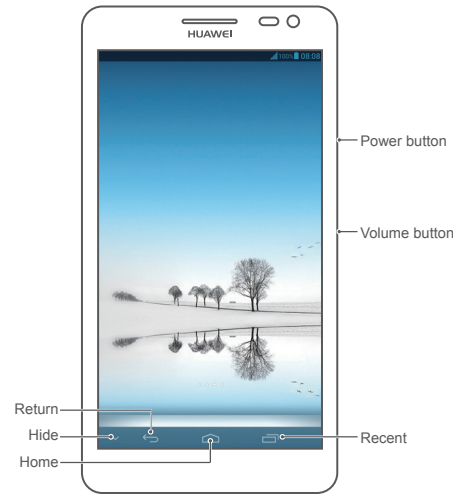

After you complete these steps, you are ready to use Mate.

Press and hold the power button for a few seconds until Mate vibrates to power it on.

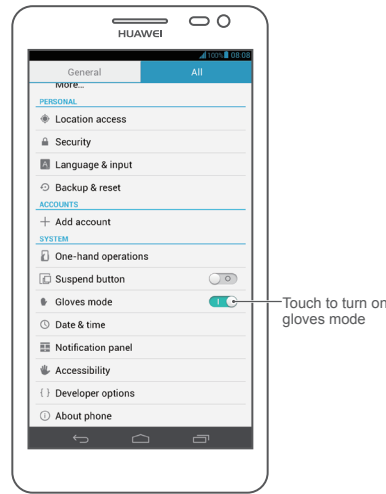

From any screen, you can:

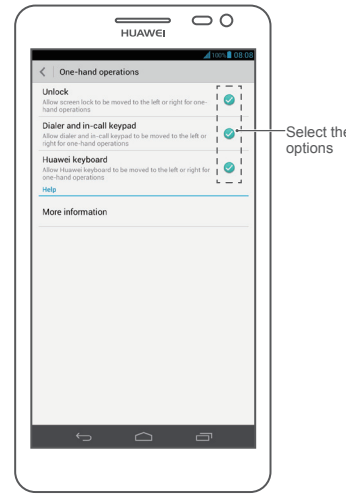

- Touch to return to the previous screen or close the current application if there are no previous screens.
- Touch to return to the home screen.
- Touch to display recently used applications.
- Under , you can enable or disable the hide navigation bar function. When the function is enabled, touch to hide the navigation bar and flick up from the bottom of the screen to display it.
- Press the power button once to turn the screen on or off. Press and hold the power button for 10 seconds or more to restart your phone.
- Press the power and volume down buttons at the same time to take a screenshot.

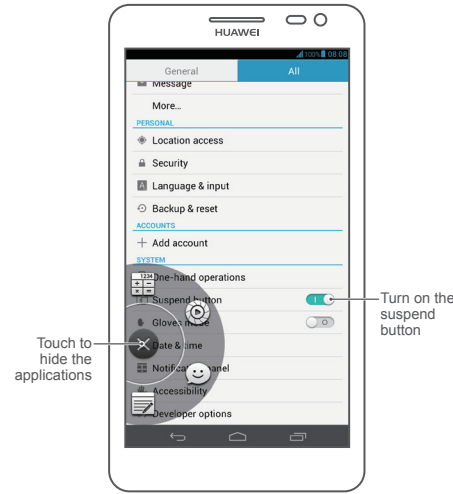

Touch to access **Settings**.
Turn on gloves mode, you can then perform touchscreen operations wearing gloves.

Touch to access **Settings**.
Touch **One-handed operations** and select all options. You can then move the keypad and other enabled items to one side of the screen for easier one-handed use.

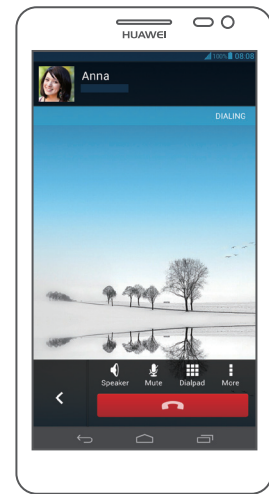

Touch to access **Settings**. Turn on **Suspend button**. A suspend button is then displayed on all screens. Touch the button to display the icons for preset applications. After you open these applications, they will be displayed as suspend windows so that you can switch between them while staying on the same screen.

Touch to access **People**.
If you are using your Mate for the first time, tap > **Manage contacts** to import contacts from a storage device to the phone.
Touch the **Groups** tab to group your contacts for easier management.

Touch to access **Phone**.
Dial the phone number you wish to call or touch to choose someone from your contacts.
You can also dial a phone number directly from a message, email, or web page by simply touching the number.

Taking a photo

Touch  to access **Camera**.
Your Mate features a BSI HD camera that lets you take photos in several modes, such as panoramic, beauty, and group.
To capture your most attractive smiles, your Mate provides face detection.
The camera automatically focuses on certain objects. To focus on a particular object, touch it on the viewfinder. Then, touch  to take a photo.

Recording a video

Touch  to access **Camera**, and switch to video mode.
Recording in 1080p full HD means stunning image quality and smooth video shots. Touch  to begin recording.

Viewing photos

Touch  to access **Gallery**.
Browse photos you have taken and relive those perfect moments.
To play your photos in a slideshow, choose an album and touch .
To edit a photo, touch  > **Edit**. You can then crop it, adjust its color, apply filters to it, and more.

Sending an email

Touch  to access **Email**.
Once you have set up your email accounts, you will be able to stay connected while on the go.

Listening to music

Touch  to access **Music**.
Your Mate features Dolby Digital Plus, which produces superior surround sound through the stereo earphones provided.
It makes high-pitched sounds clearer and low-pitched sounds more natural. In addition, the speaker is optimized to provide you with a supreme audio experience.
To turn on Dolby surround sound, touch .
Play your songs by name, artist, or album, and mark your favorite songs to add them to the **Favorites** list.

Your phone supports fast charging, which requires the provided power adapter and USB cable. Using other power adapters or USB cables may cause repeated restarts, extended charging time, excessive heat, device damage, or in extreme cases, an explosion.

Note: Do not use the power adapter, headset, USB cable, and other accessories in dusty, damp, or dirty environments. Avoid magnetic fields. If you accidentally expose your phone to water, use a soft cloth to wipe the water off. Make sure your phone is dry before you begin using it.
